Reflex at Home or On the Go!

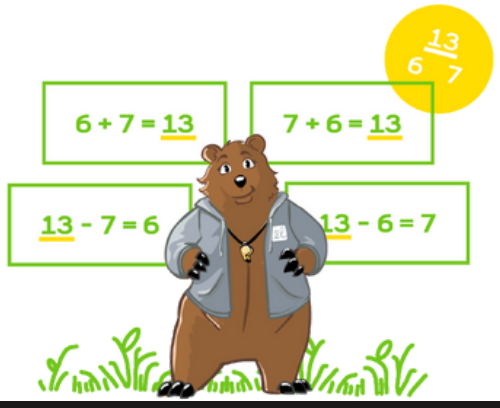
Dear Parents/Guardians,
Reflex is an online, game-based program that helps students build fast and effortless recall of math facts. Research has shown that quick recall of math facts is critical for future success in mathematics. Below, please find additional information to help support your child's progress to math fact fluency with Reflex at home or on the go.

- Students are encouraged to login to Reflex math at least 3 times a week and strive for the green light each time.
- Your child can utilize the Reflex math program from any device, including smartphones, with internet access throughout the school year from home or on the go.
- Reflex helps students of all ability levels to develop fluency with their basic facts in addition, subtraction, multiplication and division.
- Reflex continuously monitors and adapts to your child's performance to create an optimal experience for them. It is important that others do not use your child's account.
- You can easily track your child's progress by creating a Free Reflex Parent Account. Use the instructions on the right to get started!

Create a Free Parent Account

To set up an account, you will need your child's Reflex login information: (teacher's Reflex Username, the name of the Reflex Class, and your child's Reflex Password).

1. Go to reflexmath.com/parents
2. Follow the onscreen instructions to create your free account.
3. Once you are logged in, follow the instructions to add your child.
4. To access your reporting account in the future, visit reflexmath.com or go-el.com, then log in with your username and password.



If you have any questions about Reflex, you may contact ExploreLearning directly, at support@reflexmath.com
