

Spend your summer with the Genie!

Foundations is an online program that delivers a first-rate math education to students, while developing their math knowledge and critical reasoning skills.

Your child has been learning math in Foundations all year, and they can continue to learn in Foundations at home this summer until August 1st! Practicing math during the break will help your student remember what they learned in school and prepare them for math class next year. Please see below for information on supporting your child's learning in Foundations this summer. If you have any questions or concerns about Foundations, please email info@reasoningmind.org or call your child's school.

How to Access

DESKTOP & WINDOWS TABLETS

- 1 In your web browser, go to my.reasoningmind.org
- 2 Have your child log in

IOS (IPAD)

- 1 In Safari, go to app.reasoningmind.org
- 2 Click on the "Download" link by the iPad icon.
- 3 Click "Allow" for the app to install automatically
- 4 Click on the Reasoning Mind app icon to log in

ANDROID (INCLUDES KINDLE FIRE)

- 1 In Settings, allow your device to install applications from unknown sources
- 2 In your web browser, go to app.reasoningmind.org
- 3 Click on the "Download" link by the Android icon
- 4 Click on "How to Install" link and follow the steps for home users
- 5 Click on the Reasoning Mind app icon to log in

How to Learn

- 1 Schedule 2-3 hours a week for your child to work in Guided Study and 2-3 hours in the Wall of Mastery Building at home.
- 2 Students should always view their hint, check the library, and use their Foundations notebook before asking for help on a problem.
- 3 For some of this time, work together with your child. Be sure to read the Genie's Solutions together.
- 4 Reward your child for achieving a high streak.
